

Operation Rebound® Benefits from World Triathlon Corporation Partnership

CAF's Operation Rebound program is now the official charity program of the World Triathlon Corporation (WTC)-owned Ironman 70.3 events. Registered participants who raise a minimum of \$1,000 have the opportunity to join *Team Operation Rebound* and to race side-by-side with heroes permanently injured defending our freedom, as well as a variety of other perks.

“We are excited about our partnership with WTC,” says Nico Marcolongo, Operation Rebound® Program Manager, “It demonstrates WTC’s commitment to supporting our injured heroes, greatly increasing awareness throughout the triathlon community about the resilience of our injured troops and first responders, while helping to raise the funds necessary to support their athletic endeavors.”
